

Water-Saving Toilet Total Repair Kit with Dual Flush Valve

Brand: Danco
Product No: HYR451T.PL

Description

- Converts most 2-piece toilets 1.6 GPF and higher to a water-saving dual-flush design
- Combines two products that together will increase your toilet's efficiency: HYR271T Dual Flush
- Valve and HydroClean® Fill Valve
- Drop-in installation with no tools or tank removal needed
- Fast-fill valve provides efficient operation
- Saves water and eliminates common leaky toilet problems due to a worn out flapper, handle or faulty flapper chain
- Detects leaks and signals when a leak is found
- Permafit silicone seal is chemical resistant and will not warp
- Replaces flapper, chain and handle

- LightTouch™ lever; unique split handle design
- Works on standard 2 in. flush toilets
- Does not include a J-Tube cleaning tub
