

Blueskin® VP100

Brand: Henry
Product No: VP100.WP
Size: 48" × 100'

Description

- [Residential Water Resistive Air Barriers - Self-Adhered Water Resistive Air Barrier Membrane]
- Offers a fully adhered solution that produces an air tight, water tight and weather tight membrane.
- Increases building longevity by providing greater moisture and water protection than traditional water-resistant barriers
- Enhances occupant comfort by eliminating drafts
- Improves building thermal performance for reduced energy costs
- Improves air quality by reducing mold formation
- Installs easily with common hand tools
