

Blueskin® WP200

Brand: Henry

Product No: WP200.WP

Size: 36' × 66'

Description

- [Waterproofing Systems - Self-Adhesive Waterproofing Membrane]
- Consisting of an SBS rubberized asphalt compound, integrally laminated to a blue, high-density polyethylene film. SBS membrane flexible at low temperatures
- The membrane is specifically designed for self-adhering to a prepared substrate, and provides a high-performance waterproofing barrier.
- Fully adhered systems prevent lateral water movement
- No flame required
- Factory controlled thickness
- Negligible odor during application. Has CCMC approval
