

Blueskin® TWF - Thru-Wall Flashing

Brand: Henry
Product No: BH200TW933.WP ... more

Description

- [Commercial Air Barrier Accessories - Self-Adhesive Thru-Wall Flashing Membrane]
- Consisting of an SBS rubberized asphalt compound, which is integrally laminated to a yellow cross-laminated polyethylene film. The membrane is specifically designed for use as a thru-wall flashing.
- Impermeable to air, moisture vapor and water
- Flexible at low temperatures
- Excellent adhesion to prepared substrates
- Excellent compatibility with most Henry adhesives and liquid air barrier membranes
- Exceptional puncture and abrasion resistance
- Membrane is self-sealing when penetrated with self-tapping screw
