

Pro Series Polypropylene Channel Drain Kit, with Steel Grate

Brand: NDS
Product No: 864GMTL.PL

Description

- Extended ribs to make channel more sturdy
- Lay-Flat design increases stability
- New rebar tie clips for easier installation. New clip-in feature (channel to channel)
- Slotted grates are for up to Class B loading and are ADA-compliant.
- Channel is made from injection-molded polypropylene
- UV inhibitors to prevent fading and cracking
- Cut guides allow the channel to be shortened by 4-inch increments for smaller interlocking sections.
- End cap and end outlet combined with new integrated second bottom outlet and side-outlet knockouts provide 8 outlet options per channel section for increased design and installation flexibility.
- New strengthened #4 rebar clips along the channel sides allow for quicker and easier installation and increased system strength.
- Includes channel, grates, screws, end caps/outlet
- Bright galvanized steel grate
