

E40 Series Photoluminescent Step Edge Contrast Strips

Brand: Ecoglo - Kinesik

Product No: E4051.CO ... more

Description

- LEED points qualified
- Recyclable; No disposable cost
- Install with premium polyurethane adhesive.
- Option for mechanical fasteners.
- Do not use mechanical fasteners when installing outdoors.
- Standard lengths 8ft
- The hard-wearing silicon carbide non-slip material is integrally bonded to the aluminum substrate. Thousands of people can walk on it with no signs of wear and tear.
- The rigid aluminum base spreads any applied load over a greater area of installation adhesive. Installation with a premium polyurethane adhesive/sealant is extremely durable, moisture resistant, and works very well on both smooth and textured surfaces.
- Provide step edge visibility and enhance egress speed in all light conditions.
- Ideal for stairs required by code to have luminous path markings.
- Manufactured using Ecoglo's patented process which produces the most durable and highly efficient photoluminescent product available.
- Unique ridges protect it from most abrasive wear. They provide slip resistance while still allowing the product to be easily cleaned.
- Zero energy consumption
- Non-Radioactive and Non-toxic
- For Indoor Use and Outdoor Use

- Tested to accelerated UV/weathering exposure, and proven to be highly resistant to the effects of UV/weathering.
- The loss in performance is less than can be detected by the human eye when subjected to 6000 hours of UV exposure, which is similar to 30 years of outdoor exposure.
- The polymer used in Ecoglo's patented process is "long chain" which forms a strong UV resistant product when bonding.
