

Mixer

Brand: Bellota

Product No: M12LIGHT110V.CO ... more

Description

- Engine with electronic speed setting matching useful power to the material's density and mixture size with the option for a slow start up preventing the mixture uncontrollably splashing outwards.
- Easy to use with the button on the ring allowing the speed to be set without having to constantly press down on the tab and speed selector for easy speed adjustment.
- Bi-material grips sloping at 20 degree to improve ergonomoy. With soft touch for comfort during work.

- [Replacement Mixing Paddle]
For adhesive mortars, fillers, adhesive cement, rapid mortar, adhesive mortar with fibre. Mix cement quickly and easily.
High-quality steel paddle for use in mixers.

Dimensions

Includes rod 50787-120
