

Shoe-In Tread Stop Shoes

Brand: Shoe-In

Product No: SHFLTM.CO ... more

Description

- [Push fit strapless over shoe, prevents tracking outside dirt on to work area]
- [Eliminate heel and tread patterns from destroying stamped concrete]
- Works well for general concrete finishing, and the spreading of release powders and sealers on decorative concrete installations.
- Also works well for general concrete finishing or power troweling. Easy to get on and off.
- No straps to drag or break and no nuts that are going to come off. Original tight grip teeth design allows for snug fit and greater agility.
- Sized for work boots
