

Tile Cutter Scoring Wheel, For ceramic coats

Brand: Bellota

Product No: RODEL6.FT

Size: 85mm × 8mm

Short Description

Bellota

Description

- Scoring wheel handles are made from forged steel with an octagonal section very robust and resistant.
- High-quality tungsten carbide scoring wheel. High resistant and durable, last for up to 25% longer.
- Special titanium carbonitride coating for the titanium line. Which lengthens the life of the roller even more, up to 20% more compared to the rest of the line.
- Excellent precision throughout the line. Golden ratios on the 18mm measurement give greater stability and support to the axis of rotation.
